

02 Registra y usa tus materiales

Da clic en Access content y ingresa tu código de acceso*. Esto se encuentra dentro del libro de alumno de Business Result. Puedes practicar con o sin tu profesor(a), pero para unirse a una clase tu profesor(a) necesita proporcionarte con un JOINING CODE.

02 Register/access your material

Left menu > Access content > Enter access code. Your access code is inside your Business Result book. You can practice with or without your teacher. To connect to a class, your teacher will give you a JOINING code.

The screenshot shows a web interface with a left-hand menu. The menu items are: 'Access content' (highlighted with a black arrow), 'Join', 'Manage classes', and 'Manage users'. To the right, a dark blue dialog box titled 'Enter an access code' is open. It contains the text: 'To start your course, you need to enter an access code.' Below this is a text input field with the placeholder text 'Enter your access code:' and the value '1234-5678-9101'. At the bottom of the dialog, it says: 'Access codes are included with some Oxford University Press course books. Codes can also be bought online or as standalone access code cards.'

El código de acceso es único y una vez registrado no se puede usar de nuevo.*
